EDUCATION

•Veermata Jijabai Technological Institute (VJTI), Mumbai	2027
MTech - Computer Engineering	Present
•MIT Academy Of Engineering, Pune	2024
BTech - Computer Engineering	CGPA/Percentage: 8.71
•Matoshri Junior College, Nashik	2020
12th- Maharashtra HSC Board, Maharashtra	CGPA/Percentage: 80.15
•St. Francis High School, Nashik	2018
10th- Maharashtra SSC Board, Maharashtra	CGPA/Percentage: 86.40

EXPERIENCE

•Hindustan Aeronautics Limited (HAL) – Maharatna PSU, Government of India	Feb 2024 – Jun 2024
IT Intern	Nashik
– Collaborated with the IT and manufacturing teams to analyze existing ERP workflows and gather requirements for inventory management and process automation. – Developed modules for an internal Inventory Management System using Python, SQL, HTML5, CSS3, Bootstrap, JavaScript to streamline inventory tracking and record management. – Implemented database queries and backend logic to efficiently manage large-scale inventory records while improving data retrieval and consistency. – Created dynamic dashboards and reporting features to provide real-time visibility into stock availability, movement history, and inventory utilization. – Performed testing, debugging, and integration of application components, ensuring reliable operation within the organization's enterprise environment.	

PERSONAL PROJECTS

•To-Do Web Application with DevOps Integration	May 2026
Task management application developed using Flask, Docker, Git, AWS Cloud and CI/CD practices.	
– Developed a full-stack To-Do web application enabling users to create, update, and manage tasks through an intuitive interface. – Containerized the application using Docker to ensure consistent deployment across development and production environments. – Implemented version control and collaborative workflows using Git and GitHub, following industry-standard DevOps practices. – Configured an automated CI/CD pipeline to streamline application build, testing, and deployment processes. – Deployed the application on AWS Cloud, improving maintainability and demonstrating end-to-end DevOps integration.	
•Enhanced File Storage on Cloud using Hybrid Cryptography	Apr 2024
Secure cloud-based file storage system ensuring data confidentiality and authorized access.	
– Architected a hybrid cryptographic framework combining AES-based symmetric encryption for file protection and RSA-based public-private key cryptography for secure key exchange. – Implemented a hybrid cryptographic approach combining symmetric encryption for file data and asymmetric encryption for secure key protection. – Applied file splitting and block-level encryption techniques to enhance data security during cloud storage. – Leveraged AWS cloud infrastructure to store encrypted file data, enabling remote access while preserving confidentiality.	
•2D Image Generation from Text using DALL-E 2 (OpenAI)	Apr 2023
AI-based text-to-image generation system using NLP and OpenAI DALL-E 2.	
– Developed a text-to-image generation web application using DALL-E 2, converting natural language prompts into relevant 2D images. – Applied NLP techniques to extract and process keywords from user input for accurate image generation. – Integrated machine learning models to generate context-aware visual outputs for diverse use cases. – Delivered a functional prototype demonstrating AI-driven creative content generation.	

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, C++, HTML5, CSS3, JavaScript
- **Frameworks & Web Technologies:** Flask, Django, RESTful APIs, Responsive Web Design
- **Databases:** SQLite, MongoDB, Oracle Database
- **Cloud & DevOps:** Amazon Web Services (AWS), Microsoft Azure, Docker, Kubernetes, Jenkins, CI/CD
- **Tools:** Git, GitHub, Visual Studio Code, Linux, Google Colab

POSITIONS OF RESPONSIBILITY

- | | |
|---|----------------|
| • Secretary, Boys Hostel,VJTI, Mumbai | <i>1 Year</i> |
| • Class Representative, TPO, VJTI, Mumbai | <i>2 Years</i> |
| • Core Team Member, ShutterBugs Photography Club, MITAOE, Pune | <i>3 Years</i> |

ACHIEVEMENTS

- | | |
|---|-------------|
| • Published a research paper in an IEEE International Conference | <i>2024</i> |
| • Qualified GATE CS | <i>2025</i> |

CERTIFICATIONS

- Microsoft Azure AI Fundamentals (AI-900)**
- IBM Data Science Professional**
- AWS Academy Graduate - AWS Academy Cloud Foundations**
- AWS Academy Graduate - AWS Academy Cloud Architecting**
